(952) 808-0033

In Public Safety  
it's all about  
security,  
safety and instant  
communication.

(wireless communication)

reliability

In Public Safety  
having a team you can  
count on is critical to  
project control.

So is your  
communication  
system.

### Custom Communication Solutions to Take You to New Heights

Public Safety professionals must respond immediately, and they know our communication solutions will too. You can be confident that we put your needs first, back everything we sell and always bring you the latest in technology from Motorola. So please give close inspection to some of our current products and services.

### Project 25 Interoperability

Project 25 (P25) is a user-driven standard for interoperability and is vital for mission critical communications. During emergencies, P25 users can easily communicate with other agencies and response teams, share vital information, and coordinate life-saving response efforts. We offer these digital solutions - solutions that work seamlessly regardless of the equipment manufacturer.

### Paging

Make sure your important messages get to the right people with rugged and dependable Motorola pagers. These lightweight devices are comfortable to wear all day long, and are proven performers under most conditions. From traditional numeric to advanced alphanumeric display pagers, we have exactly what you need to create a communication solution for critical alerts.

### Service

Our qualified technicians are ready and able to install and configure your new Motorola equipment, handle routine repairs, or provide Motorola Original® parts and supplies to keep you communicating at full strength. No matter how complex your system is, call us at the first sign of concern and let us take care of any current or potential service issues.

### Solutions from Motorola

Stop in to see for yourself all the ways Motorola can help boost productivity. Let our expertise help you design a solution that you can count on. After all, staying connected is what helps keep situations in control. Stop in or contact us today for more information.
