In Transportation it's all about arrivals and departures. Better make sure your people are on time.

(wireless communication)

In Transportation,
having a driver on time
is critical to your
bottom line.

So is your
communication
system.

Custom Communication Solutions to Take You to New Heights

Transportation professionals give the green light to our streamlined and efficient communication solutions. You can be confident that we put your needs first, back everything we sell and always bring you the latest in technology from Motorola. So slow down for a moment, look over some of our current products and services.

Rental

From just a few units to dozens, hundreds or more, we're ready to provide two-way radio rental for your next big event, meeting, special project or virtually any short-term need. You can count on us for pre-planning assistance, through equipment preparation, and personalized help to meet your every need. Portable radios ... mobile radios ... handy accessories ... we've got them all.

Two-way Radios

Whether you choose portable radios for flexibility on the go, or mobile radios to keep people on the road well connected, Motorola Two-way radios are the definitive choice. We can help you boost your productivity with a custom solution, allowing you to easily communicate to one person or an entire workgroup over a wide range of distances.

Two-way Radio Accessories

The right accessories can maximize the productivity of your two-way radio system, and only Motorola Original® accessories are designed, engineered and tested to bring out all the performance that's built into your equipment. Count on us to offer a complete line of accessories that will fit your equipment like a glove and enhance your communication solution.
